"Nine manuscripts preserving Avicenna's *Kitāb al-Sifā'* share a set of identical marginal glosses to the section of Logic. One of these manuscripts reports, at the end of each of the glosses, a certificate of transmission ascribing them to the theologian and philosopher Fahr al-Dīn al-Rāzī (d. 606H/1210), which provides some material evidence of the existence of a flourishing exegetical activity on the *Kitāb al-Sifā'* during the twelfth-thirteenth century. ... The present paper provides an edition of the so far unknown *hāsiyāt* to Avicenna's *Kitāb al-Sifā'* by al-Rāzī, with an attempt at reconstructing their tradition and contextualizing them within al-Rāzī's exegetical and teaching activity."
