

3206 CALLATAÿ, Godefroid de. The Şābi'ans of Şā'id al-Andalusī. *Studia Graeco-Arabica*, 7 (2017) pp. 291-306. "[Şā'id al-Andalusī's] *Ṭabaqāt al-umam* opens with an account of the seven primeval nations taken from Mas'ūdī's *Tanbīh*. At the end of Şā'id's version, however, we are told that 'these seven nations, which together constituted the whole of mankind, were all Şābi'ans' - an indication not found in the Oriental model."
